REMARKS

This paper is filed in response to the Office Action mailed on August 20, 2007. Presently, Claims 1-6 are pending in the application. Claims 1-6 are objected to. Reconsideration of Claims 1-6 is respectfully requested.

Claim Objections

The claims have been objected to because of certain informalities. Claims 1-6 have been amended in accordance with the suggestions by the Examiner. The Examiner is thanked for carefully reviewing the claims for compliance with this section.

The Specification

The Examiner suggested organizing the specification by section. In accordance thereto, the specification has been amended to include headings for each section of the specification.

The abstract of the disclosure is objected to because of a certain informality. A replacement abstract is provided herewith.

The Objection to the Drawings

The drawings are objected to under 37 C.F.R. § 1.83(a). The drawings purportedly do not show every feature of the invention specified in the claims. Specifically, the method steps of Claims 1-5 must be shown.

In accordance thereto, a new Fig. 4 is being submitted and the specification has been amended to include a description of new Fig. 4.

Accordingly, withdrawal of the objection is respectfully requested.

Allowable Subject Matter

The Examiner indicated that Claims 1-6 would be allowable if amended to overcome the objection set forth above. Applicant submits that all objections related to the claim and

specification have been fully complied with. The Examiner is thanked for the careful review of the specification and claims.

CONCLUSION

In view of the foregoing amendments and remarks, applicant submits that the application is in condition for allowance. If the Examiner has any further questions or comments, the Examiner is invited to contact the applicant's attorney at the number provided below.

Respectfully submitted,

CHRISTENSEN O'CONNOR
